### **What is a Navigational Scatter?**

*It's a bit like a DIY 12 Car, start control, finish control, 3-hour time limit, a list of points to visit, a simple Treasure Hunt type clue to be answered at each point, make up your own route to get from the start to the finish within the time limit, points scored for correct answers, points deducted for being late at the finish*

### **Can I do it?**

*The only navigational skill required is the ability to find your way to a map feature (church, PH, telephone box etc) in a kilometre grid square on a 1:50000 OS Landranger Map*

### **What is a Kilometre Grid Square?**

*An area of the map covering 1 square kilometre defined by the area to the right and above the intersection of the blue numbers along the bottom of the map and the blue numbers up the side of the map*

### **What do I need?**

*Car (anything goes, if It is taxed and insured), OS Landranger Map(s), Pencils, Watch*
