This attractive circular walk is approximately 4 miles long. It passes over the former Rackheath airfield which was opened as a base for B-24 Liberator bombers in 1944 and derequisitioned in the late 1950s.

The 'Green Man' Public House was formerly a coaching inn and is believed to be over

300 years old. The route also passes the 14th Century All Saints Church with its unusual clerestory and interesting wall monuments.

Please follow the Country Code and respect the life of the countryside. Fasten all gates, keep your dogs under control and take your litter home with you.
