Read the Route Check questions carefully, nothing complicated, just make sure you understand the question

The route is continuous and, as on a 12 car, if you find yourself in the middle of a town you have probably made a mistake

NOTE if a section starts or ends on a feature included in the route check questions then that feature should NOT be included in the route check answer e.g. if a section starts at SH42 then 42 should NOT be included in the route check answer calculation

NOTE where a Telephone is used on a route card or for a route check, the route is only considered to pass it if the black line breaks the side of the road
